WON IN A WALK.

McCreary Nominated For Senator on First Ballot.

Harmonious Caucus and Plan From Madison County Received Sixty-Two Votes

Frankfort, Ky., Jan. 9.—Ex Gov. James B. McCreary received the Democratic caucus nomination for United States Senator by a vote of 62 to 37 to-night. This nomination is practically equivalent to an election.

The vote was 62 for McCreary and 37 for Cantrill, there being ninety-nine in the caucus. Mr. McCreary to-night expressed special gratification that not a man who had pledged his vote had gone back upon him when the test came, and Judge Cantrill has reason to feel proud of the handsome compliment paid him.

For forty years Mr. McCreary has been prominent in Kentucky. He first came into notice in 1862, when he assisted in raising the Eleventh Kentucky Cavalry for the Confederate Army. In this regiment he subsequently became Lieutenant-Colonel, a rank he held at the close of war. He served with distinction in the Army of the Tennessee under Gens. Morgan and Bragg, and under Breckinridge in Virginia, and surrendered with his regiment at Appomattox.

He entered politics in 1866, being chosen to represent Madison County in the Kentucky Legislature. In 1875 he was elected Governor on the Democratic ticket. After retiring from the executive office he went to the Forty-ninth Congress, and was reelected to the Fiftieth, Fifty-first, Fifty-second, Fifty-third, and Fifty-fourth Congresses. For twelve years he was a member of the House Committee on Foreign Affairs.

Mr. McCreary was appointed by the President of the United States one of the five Commissioners to represent the United States at the International Monetary Conference in 1891. In the conference he distinguished himself as an advocate of bimetalism.

CHANGE OF SCHEDULE.

Only Two Trains, The Chicago Flyers, Affected.

A change in schedule of the fast trains on the Henderson division of the L. & N., is in effect. No. 92, the North-bound Chicago flyer, now leaves here at 6:05 a. m., instead of 5:25, and No. 93, South-bound, departs at 10:48 p. m., instead of 11:59. The change does not affect the departure of the other passenger trains on the division.

SHEEP KILLING CANINES

Attack Mr. Cayce's Flock And Play Havoc.

A flock of sheep belonging to Mr. G. R. Cayce, four miles South of the city, was attacked by dogs last Wednesday night. Six sheep were killed, two were so badly injured that they will die, and four others were pretty badly torn up, but will recover. The dogs succeeded in making their escape.

MUCH WHEAT KILLED.

And the Crop is Already Cut Short.

The wheat throughout this section is in bad condition, the hard freezes and sudden thaws having resulted in leaving much of it dead on top of the ground. Farmers are of the opinion that the crop has already been cut short and conditions must greatly improve if anything like an average yield is obtained.

Mr. James J. Bumpus, an old citizen of Hopkinsville, now of Cincinnati, spent Sunday in the city.

DR. JAS. RODMAN,

The Able Physician and Upright Man, is Dead.

Passed Away Suddenly Friday Morning of Heart Failure—Funeral Sunday.

Dr. James Rodman, for many years Hopkinsville's foremost physician and most prominent citizen, died very suddenly of heart failure at 1:50 o'clock Friday morning, at his home on South Main street.

The day before he seemed to be in his usual health, and he was on the streets mingling with his friends. After supper he called on one of his neighbors and was in the best of spirits. Before going to bed, he told his daughter-in-law, Mrs. Thomas Rodman, that he felt nervous, and she gave him some medicine. At 1:30 he awoke Mrs. Rodman in the adjoining room and

THE LATE DR. JAS. RODMAN.

called to her to bring him a drink of water. After drinking the water he closed his eyes and became quiet. Mrs. Rodman sat by him and rubbed his hands and at 1:50 his stillness alarmed her and she discovered that he was lifeless. He had peacefully passed away without warning.

Mrs. Rodman, who was alone in the house, hastily summoned physicians and friends by telephone. They soon arrived and found that the end had come.

His only son, Rev. Thomas Rodman, who is a student in the Baptist Theological Seminary at Louisville, and his daughter, Mrs. W. H. H. Southerland, of Washington, arrived as soon as possible and were present at the funeral services Sunday. His wife died Dec. 20, 1894.

Dr. Rodman was a member of the distinguished Bluegrass family of that name. He was born in Henry county, Ky., March 6, 1829.

After receiving a classical education, he read medicine with his brother, Dr. Hugh Rodman, of Frankfort, and graduated from the medical department of the Louisville University. Soon thereafter he came to Hopkinsville and practiced medicine three years. Later he returned to Henry county and thence went to Frankfort, where in 1860 he erected the first building for the Peeble Minded Institute. In 1863 he was made Superintendent of the recently rebuilt Western Asylum, being elected by the commissioners. He held this position uninterruptedly for 26 years, refusing another reappointment in 1889. During all that time he made the asylum a model institution of its kind. It was never disturbed by troubles of any kind, but his remarkable executive ability and purity of character, gave to the asylum a higher standing for efficiency than has ever been enjoyed by any other similar institution in the State. It fact few if any asylums anywhere have ever been more wisely, prudently and faithfully managed than was the Western Asylum under its ablest and greatest superintendent.

Since his retirement from active business, he had been a consulting physician in exceptional cases, and

gave much of his time to looking after his large financial interests.

He spent his winters generally in Washington with his daughter, and she and the two grand-daughters spent the summers here with him.

His health had been failing for several years, but no one supposed that his death was to be soon. A few weeks ago when his former first assistant physician in the asylum, Dr. B. W. Stone, died, he was much depressed and to a close friend remarked:

"My old friends are nearly all gone. I am getting lonesome."

And thus he passed away, a physician of the highest attainments in his profession; a close and intelligent student of public affairs, whose information was wide upon a great variety of subjects; a public official whose long and useful life was above reproach, whose character was upright, honest and without suspicion.

He was a consistent member of the Baptist church, and though his piety was less demonstrative than some, his religion was deeper and more lasting. In his heart there was much of the milk of human kindness, and his charity was great and well bestowed. He aided many deserving young men, and his judgment was so correct and unerring that he seldom made a mistake in selecting worthy objects for his assistance.

His death creates a vacancy in the community that will not be filled. His great mind, his noble heart, his high character, his honesty of purpose are seldom found in one man. His friends, his church and his family will miss him, but the public also will suffer from the loss of this leader of men and this exemplary and patriotic citizen.

The funeral services were held at the Baptist church Sunday afternoon at 2:30 o'clock and the interment took place at Hopewell Cemetery. Dr. C. H. Nash, his pastor, was assisted by Dr. W. L. Nourse, of the Presbyterian church.

There were four honorary pallbearers—Messrs. John Stites, H. C. Gant, E. M. Plack and Nat Gaither. The active pallbearers were Drs. B. F. Eager, T. W. Blakey and F. M. Stites, and Messrs. John B. Trice, W. W. Trice, H. D. Wallace, J. B. Russell and J. W. Downer.

CHARGED WITH MURDER.

Husband of Supposed Suicide Taken Into Custody.

Stewart Wilcox, col., of near Guthrie, whose wife and child were found dead in a well a few days ago, has been arrested on suspicion of having murdered them.

It was believed at the time of the finding of the dead bodies that the woman, who was slightly demented, had thrown her child into the well and then jumped in herself.

Since the supposed suicide, however, the authorities have been investigating and some strong circumstantial evidence has been discovered, it is claimed, that creates suspicion of murder.

Wilcox is in jail at Clarksville.

HOWARD TRIAL.

Taking of Testimony Began at Frankfort Last Saturday.

Defense Entered a General Exception to The Evidence of Z. T. Thomasson.

Frankfort, Ky., Jan. 11.—Taking of testimony began in the Howard case to-day. Z. T. Thomasson told of seeing Goebel shot, and detailed his calculations regarding the celebrated hackberry tree. He also told of the arrival of the armed men from the mountains. The defense entered a general exception to this testimony.

Eph Lillard said that several days before the shooting he had seen men from the mountains about the capitol who were armed and "looking for trouble." The morning of the shooting capitol square was clear, and both he and Goebel thought this indicated danger. As he was about to enter the capitol he heard a shot, saw Goebel fall and then heard three or four shots in rapid succession. It would have been impossible, he said, for one man to have fired all the shots, as Colonel Chinn has testified.

Lillard said he had been looking for an attack every day after the mountaineers arrived. They looked threateningly at him several times on the street when alone.

Colonel Jack Chinn told in detail the story of the trip from the hotel to the capitol the morning of the killing. He said when he heard the shot he surveyed the grounds in an endeavor to find where it came from but could not see any person or smoke. He saw one window in the office of the secretary of State, the only sign of life about the side of the executive building toward which he was looking.

Bowman Gaines said when he heard that a shot had struck Goebel he started for home, and as he passed the executive building he saw a man hurry from the basement and climb over the fence near the northeast corner. That was James Howard. Howard went hurriedly away from the State house, moving between a walk and a run. The cross examination of Gaines failed to shake his story.

This afternoon Counsel Scott devoted his time to bringing up variations between Gaines' testimony on this occasion and at the former trial.

Jack Chinn was recalled by the prosecution and identified the clothing worn by Goebel on the day of the shooting. Each piece was passed around to the jury for inspection.

CHEAP ICE.

Every Body Can Use All The Ice
They Want.The Consumers Ice Company's
Big Plant Soon To Be In
Operation.

The almost ice famine during the heated term of last summer was the cause of a new ice company being formed in this city. The scarcity of ice caused the price to be advanced. Indeed it looked at one time as if all would have to do without what used to be a luxury, but is now a necessity. And the demand made on the supply by people in the country, for their needs, as not one of them had been able to house their supply as usual on account of the very mild winter, caused a necessary curtailment of the quantity of ice when most needed.

This condition of affairs was almost appalling, and in the eyes of some of our progressive men, necessitated putting in another plant. So Messrs. R. H. Holland, R. E. Cooper and others felt the public pulse sufficiently to convince them that the people were in for almost anything to insure against a repetition of a famine in the future. Parties were approached as to taking stock in the new enterprise and it was soon ascertained that there would be a general favorable reply to the call. Books were opened and the amount deemed sufficient to buy a new plant was soon made up.

The capacity of the first contemplated plant was afterwards considered inadequate to supply the demand that will be made on it, so the projectors concluded to double the amount of the capital stock. This call for subscription was met with the same liberality as the first, one gentleman offering to take \$5,000 worth, and others large blocks.

But the gentlemen having the matter in hand did not court large subscriptions, because they desired all consumers who will want ice next summer at a living price to take stock. Accordingly a thorough canvass of the city was made, which developed the fact that almost everyone who was able was willing to subscribe for stock. Quite a number of farmers within a radius of eight or ten miles took stock, and the desired amount was raised in a few days.

Then a meeting of the stockholders was called for the election of officers and other matters. The election resulted in the selection of Mr. R. H. Holland, President, and R. E. Cooper, Secretary, with the following board of

DIRECTORS.

C. F. Jarrett. R. H. Holland.
R. E. Cooper. O. L. Bass.
Ben. Rawlins. Dr. T. W. Blakey.

Everybody knows the business qualities, push and enterprise of these gentlemen. No better selection could possibly have been made. All know that their connection with the enterprise is synonymous with success.

Then the lot of ground on the corner of Railroad and Fourth street was purchased for the location of the plant. This piece of ground was desirable for two special reasons, the fine water that could be obtained and lying alongside the railroad.

"The Consumers Ice and Coal company" was the name chosen by the officers, and will prove a great boon to our people.

The building for housing the machinery is rapidly going up, and will soon be ready for the roof. It is the intention of the contractors, Messrs. Forbes & Bro., to push it to a rapid completion, as the early arrival of the ice machine and engine will demand it. In fact a car load has already reached the city.

An engine of 100 horse-power has been purchased which will fulfill every requirement made on it. The ice machine has already been purchased and will be here as soon as the building is completed. It was built at York, Pa., is of the most modern make, and has a capacity of twenty tons every 24 hours.

The new company will commence making ice the middle of March or the first of April, at the latest. It will be the purest quality

at 25 cents per hundred; 50 pounds
at 15 cents; smaller quantities at
half a cent a pound.

It is the intention of the company to ship to all points on the railroads, and for that purpose a machine of double capacity was substituted for the one first contemplated to be used. And so all fears of an ice famine in the future are done away with and the prices fixed will bring the output within reach of all, rich and poor. The most indigent will be able to supply themselves with a necessity when extreme heat or sickness demand it. Everybody will use nearly double the quantity of ice they have been accustomed to, and many who have never used it at all will gladly take advantage of the low price at which it can be obtained.

It is the purpose of the company, after beginning operations, to furnish the public with coal of the best quality. The wagons, teams and drivers used in connection with the ice plant will be utilized at intervals for this purpose. Anyone can see the wisdom of this.

Altogether the future of the Consumers Ice & Coal Company looks unusually rosy, and if prosperity does not crown the efforts of the gentlemen who have put on foot an enterprise that will prove of lasting benefit to our citizens, then indications are certainly deceiving.

SPECIAL PERMITS

Discontinued to Ministers by the
Louisville Passenger Committee.

The Louisville Passenger Committee had a meeting Saturday for the purpose of hearing expressions of understanding by members as to the new order regulating the governing of clergymen's tickets, the Central Passenger Association having revised the custom previously in vogue. Up to this time ministers could obtain trip permits in addition to annual and time permits. The new rules entirely abolish the one-half rate tickets to preachers except to holders of regular annual and time certificates and the use of trip permits has been discontinued.—Courier-Journal.

In late years men have made fortunes out of the tailing of gold mines. The mills in which the ore formerly was crushed and the crude processes then in use allowed a large percentage of the precious metal to escape, and that loss amounted in some cases to a fortune. The stomach is just like a stamp mill in this respect, that when it is not in perfect order it allows the escape and waste of much of the precious nutriment contained in the food. That loss when continuous means the loss of man's greatest fortune—health. Science offers a remedy for this condition in Dr. Pierce's Golden Medical Discovery. It corrects the "weakness" of the stomach, prevents waste and loss of nourishment, and puts the stomach and organs of digestion and nutrition into a condition of health which enables them to save and assimilate all the nutriment contained in the food which is eaten. In all cases of constipation the use of Dr. Pierce's Pleasant Pellets will speedily and permanently cure the disease.

IN LOVE.

A Handsome Man Preferred to
a Titled One.

A Daughter of William Waldorf
Astor Will Brave Her Father's
Wrath.

Pauline Astor is not a chip of the old block. She has refused the highest title in the English peerage—a dukedom—because she is not in love with the Duke who wore it.

The Duke is the Duke of Roxburgh, a young man and rich, and he is believed to be really in love with little Miss Astor, even though her father was born in America.

William Waldorf Astor was beginning to console himself for the various snubs which Wales administered to him by the thought that he would marry his daughter to a Lord, and his son to a Lord's daughter, and then spend the evening of his days proudly considering their social grade. What bliss to have nobles in the family, thought Mr. Astor.

So it was arranged between Miss Astor and the Duke of Roxburgh. But a grave omission was made in the arrangement, for Miss Astor was not consulted. To make everything lovely the Duke really fell in love with the girl that everybody said he ought to marry.

But she didn't fall in love with him. Contrariwise, she fell in love with a commoner, with considerably less than nothing, but the handsomest man in the handsomest company of the finest-looking regiment in England—Capt. H. Fraser, of the Royal Guards. Most people who have seen him say that unquestionably he is the handsomest man in the world. Certain it is that he has had a career with women unequaled since the day of Dashing Jack Churchill, afterward first Duke of Marlborough, and, with the possible exception of George IV., the "First Gentleman of Europe," 100 years ago.

He is a son of General the Hon. Sir David MacDowall Fraser, retired, and nephew of Lord Saltoun. But lack of fortune and even farthings cannot influence the popularity of the man who, since Capt. Osi Ames' retirement, has been known as the flower of the most perfect company of men in all the British Kingdom.

London expects the expatriate daughter to marry the soldier soon, with or without her father's blessing, and London applauds.

But Astor may have his way yet. No formal announcement of the engagement has been made; she is his daughter, living under his roof. And when he wants his way, William Waldorf Astor is a hard man.

W. L. Yancey, Paducah, Ky., writes: "I had a severe case of kidney disease and three of the best physicians in Southern Kentucky treated me without success. I was induced to try Foley's Kidney Cure. The first bottle gave immediate relief and three bottles cured me entirely. I gladly recommend this wonderful remedy." Take no substitute. All druggists.

RICHEST NEGROES

Descendants of Former Slaves of the Creek Indians.

Following in the Footsteps of the Southern Negro, they Have Festivals and 'Possum Hunts.

The richest community of negroes in the United States lives in the Indian Territory, says the New York Times. There are 7,000 of them, and they are worth on an average of \$3,000 each. The wealth of the more industrious foots up even higher, certain individuals being the owners of from \$10,000 to \$15,000 worth of land.

These negroes are descendants of slaves of the Creek tribe of Indians, and are known as Creek negroes. They are entitled to share in the division of the Creek Indian lands, also part of the trust funds. Together the 7,000 negroes own 22,000,000 acres of land. And yet their social environments are crude in the extreme and progress goes slowly amid their huts and fields.

Unlike other Indians of the rich Five Civilized Tribes, the Creeks insisted upon freeing their slaves in 1864, in order to give them an equal share in their lands and money. At that time there were but few slaves, but the number grew through descendants until 7,000 have laid successful claim to a "headright" on the Creek rolls of citizenship. They have their own representatives in the Creek Indian legislature, their own schools and their own churches.

The Creek negroes have never progressed above their fathers who were slaves, except that they are well enough educated to care for their lands and money without being cheated out of a goodly portion of it. They have a social set all their own, to which not even the Indians are invited. Their characteristics are in a great measure vastly different from the negro of the South or the negro of the North. It is a mixture of both, with additional peculiarities.

Like the Indian, these negroes have their dances in the open, which have come to be a sort of religion with them. And following in the footsteps of the Southern negro, they have barbecues, 'Possum hunts and the like. As a northern type of the negro they are more industrious and independent of the whites, know how to work hard and save their money, and, like the type from the city, are well dressed—that is gaudily, but at the same time wearing expensive clothes.

These Creek negroes live on a tract of rich land in the Canadian river bottoms. Okmulgee, the capital of the Creek Indian nation, had been for years a negro town. Recently, however, white people have flocked in and taken possession. Now the negroes are starting other towns for themselves exclusively along the branch of the Frisco railroad.

Notwithstanding that many of these Creek negroes are industrious, there are those among them rent out their estates and lounge in idleness about the railway stations. It is a common sight to see a 500-acre tract of rich land in the Canadian bottoms being tilled by a white man, the negro owner was shooting craps or enjoying himself eating turkey and 'possum in a neighboring village. Each Creek negro will come into undisputed possession of 500 acres of land when the Dawes Commission has allotted their lands pro rata to them some time during the coming summer. Upon dissolution of the Creek Government the negroes will likewise share equally with the Indians in the distribution of several million dollars of trust funds.

RUSSIA'S INDUSTRIAL CRISIS.

The Independent of Tienna, quoted by the correspondent of The Times in the Austrian capital, declares that the industrial crisis in Russia is steadily assuming larger dimensions, extending to many branches of industry.

Help is demanded from the Government. The majority of the manufacturers want increased import duties, but it is not believed that the Government will depart from the system of moderate protection.

"MAD STAGGERS"

Said to be Disease Proving Fatal to Stock.

Kansas Experiment Station Sends Bulletin Concerning Symptoms, Treatment, Etc.

Kansas horses have been dying of a disease resembling that which has been killing stock throughout this section and the experiment station at Manhattan, Kans., has issued the following bulletin, giving symptoms, treatment, etc.:

Serious losses in this and adjoining states are occurring at the present time as a result of feeding wormy, mouldy corn, either when it is fed as a grain ration or when obtained by pasturing in the stalk fields, or when fed upon the cut corn fodder.

The disease is an inflammation of the brain or spinal cord and its covering (meninges), associated with a breaking down of the nerve tissue of the brain. It is popularly called "staggers," or "mad staggers," because of the prominent symptoms shown.

SYMPTOMS: The symptoms are those of a brain disease. The animal appears blind and only partially conscious; there is often a tendency to turn in a circle to the right or left, and a staggering or a straddling gait. There is usually a trembling of the muscles. As the disease progresses the animal becomes delirious and easily excitable. Animals will often eat when badly affected, apparently from force of habit, not because they are hungry. In some cases animals will die in a few hours after they are first noticed ailing. Most of them die within a few days; a few live a week, rarely longer. In a few cases the spinal cord is diseased, while the brain remains nearly normal. In these cases there is inability to control the muscles, or the animal may be usually sensitive, the least irritation of the skin, even by touching the animal, often causing it to kick violently. Where the spinal cord only is affected the animal frequently recovers. Laxative food should be given, and iodide of potash in one-drachm doses dissolved in water can be given once daily for three or four days.

Mules are rarely affected by this disease.

TREATMENT: Practically all cases, where the brain is the seat of the disease, die, and all methods of treatment so far have proven of no value. The animal should be placed where it will be comfortable, and cannot injure itself or other animals, and supplied with soft laxative food, such as thin bran mash. The only treatment for the disease is preventive, by avoiding the wormy, mouldy corn.

Care should be exercised in handling a horse to avoid injury, as the animal is irresponsible and often in delirious frenzy.

In some cases horses do not begin to die for a month after being turned into the stalk fields, and they may contract the disease in a week, and in some cases ten days after the mouldy corn has been withheld.

It is almost impossible to make a mean man feel mean.

A self-made man never grows weary of praising his maker.

Some society girls are as sweet as sugar—of the powdered variety.

ANNOUNCEMENT!

We are authorized to announce
MR. WEBB C. BELL,
Of Christian County, as a candidate for Railroad
Commissioner in the First Railroad District of
Kentucky, subject to the action of the Demo-
cratic party, Election Nov. 1903.

Shaw, the new Secretary of the
Treasury, will not take charge until
the first of next month.

Henry C. Payne, the new Post-
master General, will qualify and
enter upon the duties of his office to-
day or to-morrow.

A jury in the Howard case was
secured before the prosecution or
defense had exhausted their chal-
lenges.

Louisville is to have another
Trust Company and Joshua D.
Powers, of Owensboro, is to be
President. Capitalization \$500,000.

There will be \$139,842,230 paid
out this year, against \$145,245,230
last year. A little reduction of
about five and a half million ought
to ease up things somewhat.

The handsome \$6,000 building of
the Railroad Y. M. C. A., at Cor-
bin, was formally opened last
week. A large number of visitors
were present.

The daughter of a rich farmer
and head waitress in one of the
hotels in Vincennes, Ind., died from
injuries sustained by a fall while
trying a high kick at a waiter full
of dishes held by another waitress.

A majority of Democratic legisla-
tors have signed a call for a caucus,
which was to meet last night, to
nominate two candidates for Prison
Commissioners. It is probable that
the same caucus will nominate a
State Librarian.

A plan to still further expedite
the delivery of special delivery let-
ters is being considered by the
Postoffice Department. It contem-
plates street boxes on the streets in
cities in which no letters but special
delivery are to be placed.

The machinery of the Kentucky
Legislature, with its big Democra-
tic majority, is working perfectly,
and without a single contested seat
in its body. The Democratic mil-
lennium began last November at the
polls.

Now that China is doing business
at the same old stand in the same
old way, it comes to light, by re-
cords found, that the Chinese govern-
ment was in alliance with the Boxers
in their uprising. This is but con-
firmation of the belief of some per-
sons while the trouble was going on.

Representative Rogers, of this
county, offered a resolution in the
House last Friday that the mem-
bers thereof should "vote on all
questions according to the dictates
of their consciences, without regard
to partisan bitterness and feelings
of the past." The insinuation that
the members would do otherwise
was resented in such strong terms
by some of the membership that the
resolution was withdrawn.

\$100 Reward \$100.

The readers of this paper will be
pleased to learn that there is at
least one dreaded disease that sci-
ence has been able to cure in all
its stages, and that is Catarrh.
Hall's Catarrh Cure is the only
positive cure known to the medical
fraternity. Catarrh being a constitu-
tional disease, requires a constitu-
tional treatment. Hall's Catarrh
Cure is taken internally, act-
ing directly upon the blood and mu-
cous surfaces of the system, there-
by destroying the foundation of the
disease, and giving the patient
strength by building up the constitu-
tion, and assisting nature in doing
it.

Washburn & Sons, proprietors of
Hall's Catarrh Cure, have
a large stock of the medicine
and are in a position to
supply the demand for it in
all parts of the country. It is
sold by all druggists, and
is the only cure for Catarrh
of the bladder, prostate, and
rectum. It is also a cure for
all other diseases of the
urinary system. It is sold
in bottles of 50 cents and
\$1.00. It is the only
cure for Catarrh of the
bladder, prostate, and
rectum. It is sold by all
druggists, and is the only
cure for Catarrh of the
bladder, prostate, and
rectum.

Aching Joints

In the fingers, toes, arms, and other
parts of the body, are joints that are
inflamed and swollen by rheumatism—
that acid condition of the blood which
affects the muscles also.

Sufferers dread to move, especially
after sitting or lying long, and their
condition is commonly worse in wet
weather.

"It has been a long time since we have
been without Hood's Sarsaparilla. My
father thinks he could not do without it.
He has been troubled with rheumatism
since he was a boy, and Hood's Sarsapa-
rilla is the only medicine he can take that
will enable him to take his place in the
field." Miss Ada Dorr, Sidney, Iowa.

Hood's Sarsaparilla
and Pills

Remove the cause of rheumatism—no
outward application can. Take them.

It has been fully demonstrated
that we can raise in this country
all the wrapper tobacco necessary
for domestic use and of a quality
second to none. In every particu-
lar the weed grown in the United
States is as fine as can be grown
in Cuba or any other country.
Last year ten acres of filler tobacco
was successfully raised in Pennsylv-
vania of a very high grade, and
during the coming season extensive
experiments will be made in rais-
ing high-grade filler in Ohio, Texas,
North Carolina. Last year the im-
ports of wrapper tobacco into the
United States amounted to \$6,000,-
000 and of filler \$8,000,000.

The police of Boston have captur-
ed the noted swindler, "Lord
Beresford," known to the police of
three continents. He had half a doz-
en aliases and was one of the slick-
est scoundrels ever apprehended.
He once fooled and married the
daughter of an American million-
aire in Algiers, but has since served
two terms in State prisons for for-
gery. His real name is Sidney
Lascelles.

Mrs. Stowe's noted "Uncle Tom's
Cabin" is likely to be barred from
presentation in Lexington. The
Daughters of the Confederacy have
requested the manager of the Opera
House not to permit it to be placed
on his boards. Nothing is more
calculated to arouse the prejudice
of the colored race than the over-
drawn scenes with which they are
regaled in the dramatization of
what has been considered the au-
thor's greatest work.

The President has requested the
renomination of E. T. Franks and
Samuel J. Roberts, the present Col-
lectors respectively in the Second
and Seventh Kentucky Internal
Revenue districts, provided their
records are found to be good.

Already the organs of the Navy
Bureau ring are telling the Presi-
dent openly that he must "turn
down" Admiral Schley's appeal for
redress, but Mr. Roosevelt is not in
the habit of taking much cheap ad-
vice, especially when it comes in
the nature of a manifest affront.

A Buckeye editor says: The dif-
ference between the trusts and the
people is this—when the trusts
want anything from Congress they
keep working until they get it, when
the people want anything they
make one trial for it and then spend
a year or two wondering why they
did not get it.

J. Syd Perry and Boyd Barnes
have leased the Russellville Herald-
Ledger for two years. A. G. Rhea
is editor in chief and W. C. Perry is
city editor. The prosperity of the
paper under the new management
has the KENTUCKIAN's best wishes.

E. E. Cline, of New Philadelphia,

will endeavor to have congress
modify the Chinese Exclusion act.
They contend that the exclusion is
a menace to otherwise favorable
prospects for their industry.

FISCAL COURT

Met Last Saturday and Trans-
acted Important Business.

Elected Road Supervisor, Work-
house Keeper, County Physi-
cian, Etc.

The Fiscal Court for this county
met last Saturday. All eight of the
magistrates of the county were
present.

Instead of filling the places of
road supervisors for another year,
the body abolished these offices and
made a new departure in the way
of keeping up the roads of the
county by creating the office of Gen-
eral Superintendent. The system
of having road overseers was re-
tained, but they will be under the
control of the General Superinten-
dent.

Squire T. J. McReynolds was
elected to the place of General Su-
pervisor. It would be hard to find
a more progressive and energetic
man than Mr. McReynolds. He is
so well and favorably known that
it would be superfluous for us in
any way to speak of his excellent
qualities as a man and citizen.
His salary was fixed at \$1,200.

It was determined by the court to
keep up the roads by the old sys-
tem and by taxation, which will no
doubt be an improvement over the
old plan.

Mr. W. T. Vaughan was elected
work-house keeper. Mr. Vaughan
has filled this place before to the
satisfaction of the public. He
succeeds Mr. Geo. M. Clark,
who has filled the place for several
years.

G. E. King was elected poor-house
keeper for twelve months.
Dr. J. P. Thomas was elected
county physician, to succeed Dr.
R. F. McDaniel.

As Squire McReynolds is at pres-
ent a member of the court, he will
send in his resignation to Gov.
Beckham prior to entering upon the
duties of General Road Supervisor.
The vacancy thus caused in the
court will be filled by appointment
by the Governor.

Court adjourned to meet Monday
morning.

Monday's Session.

The court met and remained in
session but a short time. After ap-
pointing committees to look into the
condition of the pikes in the county
and purchase feed for mules belong-
ing to the work-house, adjourned to
meet next Thursday.

Two Married Men.

Geo. Edson's success ful comedy
which will be at Holland's Opera
House to-morrow evening comes
highly recommended by the press
in the cities where it has appeared.
The State Journal of Lincoln, Neb.,
says: "Two married men" gave
the benefit of their experience in
the matrimonial line to a large au-
dience last evening. The same
company was seen here last season,
when they left a pleasant impres-
sion that has not been effaced up to
date. There is just enough exag-
geration in the skit to make it en-
tertaining from beginning to end
and not so much of noise and horse-
play as to make it a bore. S. S.
Simpson and W. A. Parker were
the two married men who had
trouble that caused laughs through-
out three acts. Specialties were in-
troduced by Charles Schilling, Colton
& Darrow, the Dewey Sisters in
swell dances with a modicum of
song, and by Frank Colton, rep-
resenting the colored contingent.
The house was crowded in all its
parts."

A Good Recommendation.

"I have noticed that the sale on
Chamberlain's Stomach & Liver
Tablets is almost invariably to
those who have once used them,"
says Mr. J. H. Weber, a prominent
druggist of Cascade, Iowa. What
better recommendation could any
medicine have than for people to
call for it when again in need of
such a remedy? Try them when
you feel dull after eating, when you
have a bad taste in your mouth, feel
bilious, have no appetite or, when
troubled with constipation, and you
are certain to be delighted with the
prompt relief which they afford.

EDGEWOOD!

8069.

Edgewood's breeding is of the most fashionable strain, and contains
crosses to all the blood that has produced the winners of the world.
Such stallions are too few for the good of the trotting industry. Num-
bers of the best, were during the hard times just past, exported to
foreign countries. Among the few left to fill the requirements Edgewood
remains, though yet a young horse, has seven to his credit, with records
from 2:24 to 2:10, which, in itself, is proof sufficient as to his merit. His
colts are all fine, large, good looking individuals, good actors and trot-
ters, and command the top prices when led in the salesring. Gayety,
2:18½, one of his handsome daughters, was sold to John Splan, of Cleve-
land, Ohio, last February for Five Thousand Dollars (\$5,000 00). Eight
youngsters by him were sold in John S. Lackey's sale in March last, by
S. J. Fleming & Son, of Terre Haute, Ind., for prices that proved to
them that there was still money in raising colts by the right kind of a
horse.

Edgewood is the property of S. J. Fleming & Son, of Terre Haute,
Ind., and ranks with such horses as Margrave, Axtell, and Jersey
Wilks, which is proven by his list of colts with race records. His colts
make fine roadsters and Matinee horses and are sought for that purpose
as well as for race horses.

Edgewood, by Nutwood, (600) sire of 160 performers, including

sires of 223, and Edgewood's dam, Melrose, is the dam of Glenview
Belle, 2:20½, and Frances, (2 yr.) 2:28½, made in 1901. His second dam,
Moss Rose, dam of Nutrose, 3:22, and grand dam of 16, 3rd dam, Prim-
rose, the dam of 6, from 3:30 to 2:30. 4th dam, Black Rose, dam of 3 in

GOEBEL'S PROPHECY

Fulfilled, as Proven by the Large Majority in the Legislature.

Democrats hold in the Kentucky Legislature 99 out of 138 seats and not one of them is contested. Verily, Gov. Goebel's prophecy that his assassination would prove to be to the Republican party in Kentucky Democrats carried six of the seven Appellate Court, ten of the eleven congressional, two of the three Railroad Commissioners, and nearly three-fourths of the senatorial and representative districts of the State. And to-day all the members of that big Democratic majority are standing together, as stood Jackson's men at the first Manassas—"like a stone wall!"—Louisville Times.

Remarkable Cure of Croup.

A LITTLE BOY'S LIFE SAVED.
I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed ever ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth to-day.—JOEL DEMONT, Inwood, Iowa. The Last of Poor Lo.

Civilization is having its effect upon the Indian papoose as well as upon the warrior and medicine man, says The Delineator for February. In a few years more there will be no more little full blood babies, so fast is the extinction of the red face being accomplished. And when the redskin children are no more, the West will note the absence of its most stoical little Americans, the most picturesque of all babies. In a well-illustrated article on the subject W. R. Draper discusses the passing of the Indians, of which the present generation of full-blood babies will be the last.

A Reliable Remedy for Bowel Troubles.

Rev. J. M. Yingling, pastor of the Redford St. M. E. Church, Cumberland, Md., says: "It affords me great pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used it and know others who have never known it to fail." For sale by all Druggists.

Fashion's Latest Sleeves.

The latest edict of fashion calls for a sleeve of much larger proportions in all outdoor garments. This is more especially noticeable in evening wraps, although many of the newer coat and jacket sleeves are greatly enlarged in size, particularly from the elbow down. It stands to reason that the elaborate sleeve of the smart gown or separate waist cannot be crowded into a tight outer sleeve without detriment. In the February Delineator there is an exhaustive article on the making of latest sleeves on outer garments. Numerous illustrations add to the value of the text.

Clarksville Business College.

The advertisement of the Clarksville Business College and School of Shorthand appears in this issue of the KENTUCKIAN and the attention of the public is called to same. Mr. R. P. The Secret Ballot.

EDITOR KENTUCKIAN: I notice that you said, in a late number of your paper, that a State Senator (I forget his name) favored a return to the viva voce method of voting. I agree with the senator on that point.

The secret ballot was intended to prevent the sale of votes, and no doubt it has accomplished its purpose with a certain class of voters. But does it prevent the sale of votes in the halls of legislation, where the sale is likely to do the most damage to the public? I, as a voter, see very little difference between Jones and Smith, opposing candidates for office. Now, if Jones should offer me \$5 to vote for him, would it not be to my interest to vote for him? Besides most people (and by no means the most ignorant) sell their votes under any and every system of voting. I asked a prominent citizen of your town why he voted for the Gracey R. R. Tax. He said it was his interest to do so. And how came it his interest to do so? He had property in your town and it would make his property more valuable. "But," said I, "that only makes your taxes higher." "Oh," said he, "the renter will pay that." Now, many people are renters by force of circumstances. Do you suppose any of them would think it to their interest to be compelled to pay higher rent? Evidently that man's view was limited to his own individual interest, and he thought little of the interest of his tenant.

Jay Gould was once before a Congressional committee, and was asked if he ever used money to secure the election of his favorite candidate. His reply was that he used to do so, but did not now, because it was cheaper to buy the man after he was elected.

Secret ballot is a very doubtful policy, is on a par with prohibition and woman suffrage. Many persons think temptation should be kept out of the way of the young, but the true doctrine is, the young should learn to resist temptation. No strong character ever existed which was not made stronger by resisting temptation. If a hungry dog can be taught to refrain from eating a piece of meat placed at the end of his nose, cannot children be taught to abstain from harmful indulgences?

Some think if women were allowed to vote they would soon purify the filthy pool of politics. It might be possible if, if, if politics did not first corrupt the women. A woman candidate out west promised a kiss to every man who would vote for her. Possibly there was no harm in that—a small matter, one might say—a mere straw, but it shows which way the woman suffrage wind blows.

The secret ballot reminds me of a story related in the xl. chapter of Luke's Gospel: A devil (or evil spirit) was cast out of a man, and it went wandering about till it found several other devils more wicked than itself, who came and dwelt in that man; and "the last state of that man was worse than the first." So the devil "viva voce" has been cast out, and no one knows how many devils more wicked than itself, headed by deceit, hypocrisy, lying, underhanded meanness, &c., &c., encouraged by the secret ballot, will come to take its place.

All law should be founded on the moral law, but moral prophylactics thrust into politics serve only to make matters worse in the end.

The Austrian government was once greatly exercised over the vast amount of pauperism in that country, and while the legislature was casting about for a remedy, one member jumped upon his feet and said: "I have it. Let's grant no marriage license to those who have no visible means of support."

"That's it; that's the very thing," said the majority. What was their surprise, a few years after, to find that half the children of the empire were the "sons of nobody."

"Naturum expellat furca, tamen usque recurret," says Horace, you may drive out nature with a club, (i. e. by strict laws) yet will she return victorious over all your laws. PUBLICUS.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

WILL ISSUE PASSES.

Anti-Pass Agreement Apparently Broken Past Mending.

Chicago, January 10.—So far as the territory of the Central Passenger Association is concerned, the anti-pass agreement has apparently been broken past all mending for another 12 months at least. Circulars were received in Chicago today which were issued by the Pennsylvania and the Lake Shore Roads, announcing that for the year 1902 exchange passes would be given and inviting the same. Similar notices are being issued by all the lines.

The decision to abrogate the agreement was reached in a meeting of the trunk line Presidents in New York two days ago, at which it was decided that conditions were not favorable for carrying out the agreement in Central Passenger Association territory.

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

will generally correct this difficulty.

If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

Wherever Admiral Schley Goes He is Lionized.

The People of Savannah, Georgia, Showd Their Appreciation Last Sunday.

A dispatch from Savannah, Ga., last Sunday, says: "Rear Admiral Schley passed a quiet day at the home of Gen. W. W. Gordon, whom he is visiting. He attended religious services this morning at Christ church, Episcopal, and this evening at the Independent Presbyterian church. There was no demonstration in either building, though both the streets were lined with people before and after the services. Men raised their hats to the distinguished visitor and women bowed to him, but there was no cheering or hand clapping. It had been on the programme for the Admiral and Mrs. Schley to take a carriage drive this afternoon, but the coldness kept them indoors.

LECTURE SANDWICHED

With Fun And Audience Sent Into Roars of Laughter.

On the occasion of Gov. Bob Taylor's lecture at Holland's Opera House, next Thursday evening, January 16, every available space will be taken. The lecture, "The Old Plantation," is the ex-Governor's latest production and is sandwiched with fun, which sends the audience into roars of laughter.

A recent editorial in the New York World says:

"Whether with mouth or fiddle, Ex-Gov. Robert L. Taylor, of Tennessee, is easily one of the most accomplished performers of the world. * * * As a Paganini among politicians and a Patrick Henry among fiddlers, the Ex-Governor is undoubtedly the most admirable product of the moonshine regions of his State. * * * Whether a fiddler, orator, or patriot, he is an unequalled success, and a credit to the country of which his native moonlit mountains form so picturesque a part."

She never cries and is always in a good humor.

JANUARY 21,

Date Set For Hearing of Will Morrison Case.

The case of the State vs. Will Morrison, charged with murdering Douglas Coffman in this city in December, 1899, is set for hearing before Judge Hart, in the Davidson County Criminal Court, Tuesday, Jan. 21. This is Morrison's second trial. In the first he was found guilty of murder in the first degree, but the Supreme Court granted him a new trial because one of the jurors had been interested in a suit that was tried at the same term of court.—Robertson County News.

NOVEL WAY

Of Helping Farmers Planned By
New York Capitalists.

Warehouses to Be Built and Money Loaned on Guaranteed Receipts.

Prominent financial interests are organizing in New York a new trust company which will operate along entirely novel lines and in a field at present worked by no other similar institution. The company will be known as the Trust Company of the Republic. Its purpose will be to loan money to farmers throughout the country on warehouse receipts as security, and when its own resources will not permit of such loans to become a headquarters for the negotiating of paper of that character.

It was stated by one of the financiers interested in the scheme that farmers and producers of raw material in many parts of the country to-day were compelled to pay as much as 20 or 25 per cent. interest on money borrowed. This forced them, especially in the matter of cotton, to rush their product to the market and to sell it at a disadvantage in order to be able to liquidate their loans.

Looking forward to the ultimate formation of the Trust Company of the Republic, about two months ago the Security Warehousing Company of New York was organized, and has already leased several warehouses in the cotton producing district. This company, which has total assets already of more than \$1,500,000, proposes to build warehouses all over the United States, and to receive raw materials and to issue receipts for them.

The warehouse company is backed by the same interests, in part, which will be represented in the trust company. Alexander Greig is president of the warehouse company. Thomas F. Goodrich is vice president, and among the directors and stockholders are Anthony N. Brady, D. Leroy Dresser, M. Taylor Pyne, J. Edward Simmons, Frederick B. Schenck, Leslie D. Ward, Glen Wright, Emerson McMillen, and S. R. Bertron.

It is planned that the receipts issued by the warehousing company shall be registered and guaranteed. The farmer holding them will then be in a position to obtain a loan from the new trust company at the prevailing rate of interest in New York, instead of at the ruinous rate he is now compelled to pay.

The capital stock of the new trust company is to be \$1,000,000, with \$500,000 as a surplus. It will have two offices, one in the heart of the Wall street district, and another in the heart of the mercantile district, between Worth and Grand streets.

DISFRANCHISEMENT

Will Not Affect Representation in The South.

A Washington special says the indications are that after all the Republicans of the House may not caucus upon the subject of a proposed bill designed to reduce Southern representation in Congress, which has been threatened on account of the disfranchisement of the negroes. Representative Crumpacker, an Indiana Republican, who recently submitted a petition to Republican members calling for a caucus to outline plans affecting this proposition, is said to have become lukewarm in his purpose to secure a caucus and the project may now be abandoned entirely.

Mr. Crumpacker has learned evidently that there is little prospect of legislation of the kind he proposes during the Congress, and is consequently discouraged.

"JACK THE RIPPER"

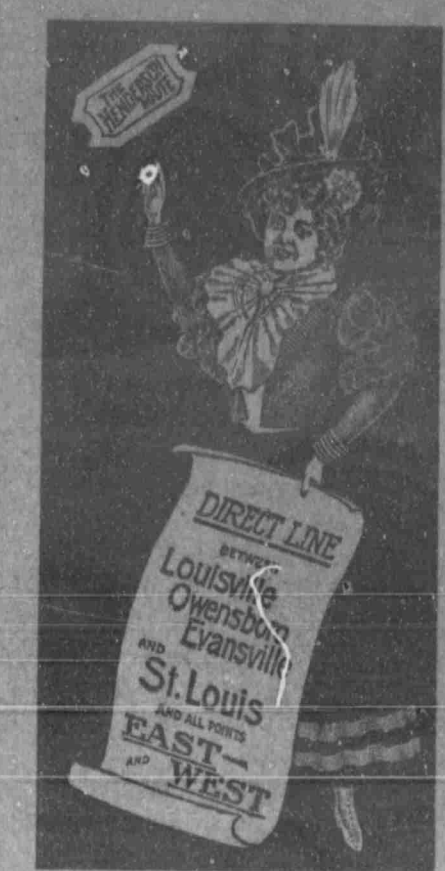

Probably Looked Upward From the End of a Rope.

FROM THE LONDON CHRONICLE.
A Bolton correspondent telegraphs: James Billington, the hangman, whose death took place a few days ago, declared that he never hanged anybody with greater satisfaction than he did Dr. Neill Cream, whom he believed to his dying day to have been "Jack the Ripper." Dr. Cream did all he could to delay the execution, and Billington, becoming impatient, suddenly pulled the fatal bolt. As he did so he distinctly heard Cream say, "I am Jack—" and believed that in another second he would have confessed he was "Jack the Ripper." Certainly, as Billington put it, we never heard of the "Ripper" afterward.

Twenty-three Years.

In view of the fact that the KENTUCKIAN has wound up its 23rd year of success, it is not out of place to say a word to its friends. The KENTUCKIAN has long since become a fixture of Hopkinsville.

All Newspaper Records in the City Have Been Broken by it.

No other paper ever published in Hopkinsville can point to a record of more than 20 years, with each year's business better than the one before. How many papers in that time have tried to run in Hopkinsville and fallen by the wayside? How many have failed to reach the goal?

An ocean cable 10,000 miles long would not serve the purpose for which it was designed if it fell short within twenty feet of the receiving-instrument.

It isn't the first end that counts. It's the last end. The start is nothing. Every contestant starts in a race, but how many finish? Almost any horse can begin in a race. Wish a few trials, ever an old plug may get away from the wire all right, but it's the coming under the wire for the last time that counts, it's being in the race to the finish that is alone valuable.

A great many things in this world are made to begin well enough, but they fall short.

The KENTUCKIAN as an advertising medium has never fallen short. As a news medium, occupying a field of its own choosing, it has for 20 years stood squarely upon its merits and succeeded

WHERE OTHERS FAILED.

Advertisers should bear this in mind. Money spent for Newspaper Advertising is an investment. It is not how much the advertising costs, but how large will be the returns. The mission of Newspaper Advertising is to Sell Goods. When the careful merchant has decided the important question as to the right medium, then, by attractive display advertising in that medium, he will inevitably increase sales. This result follows as surely as day follows night. The

Kentuckian

is the medium that pays, because it reaches the people. It has among its patrons advertisers who have been with it without a break for 12 to 15 years. It numbers the very best class of advertisers in their respective lines of business.

If you are not already a customer of ours, we want to make you one, and your advertising ONE OF OUR SPECIALTIES.

Newspaper advertising has become an indispensable adjunct to business. You need the advertising, we have the space to sell. Come let us do business with each other.

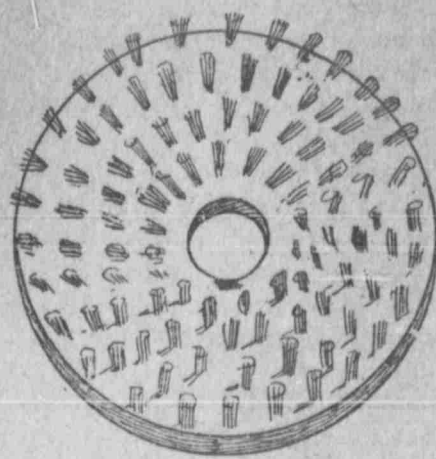

And to the reading public, remember we cover the entire news field twice a week for only \$2 a year. At least one half of the news we give is in advance of other publications, because our facilities for gathering out-of-town news are equalled by none. If your time is out renew promptly. If you have never taken the KENTUCKIAN, try it for 1902.

CRUELTY TO HORSES.

New Yorkers Are Accused of Using Bit Burrs to Make Their Teams Appear Spirited

Bit burrs for making horses hold their heads high in the air are said to be in common use in New York. Eight pairs of the burrs were removed from the mouths of horses attached to private carriages in front of the Madison Square garden in New York the other night. The owners of the carriages desired to have their horses make a good appearance at the horse show, and hit upon this means of making an ordinary animal appear frisky. The bit burr is a contrivance made of heavy leather, three inches in diam-

(Cruel Device Used by Horse Owners in New York City.)

eter. In the center is a hole large enough to admit the bit. On the inner side of the burr are bunches of bristles, which protrude a quarter of an inch. The burr is slipped on the bit and the bristles rub against the side of the horse's mouth when the line is pulled taut. The burr is used legitimately for correcting a "one-line puller," as a horse which pulls to one side is called.

Bristles is the usual material used for studding the burr, although it is charged that some horse owners use tacks, with the sharp point filed off. Both kinds of the burr are said to have been removed from the New York horses.

"I do not think bit burrs are used in Chicago for anything other than correcting the habit of some horses to pull to one side," said the manager of Studebaker Bros. Manufacturing company. "The burrs are kept in stock for that purpose, and I do not believe any of the New York people used them for the purpose of making their horses hold up their heads. It is effective for the purpose for which it is intended, but it is not such an awful instrument."

"I am surprised to hear the New York report, and I do not believe Commodore Elbridge T. Gerry had burrs on his horses," said President John G. Shortall, of the Chicago Society for the Prevention of Cruelty to Animals. "I have never heard of such cases of cruelty in Chicago, and would be pleased to be furnished with evidence against anyone here who resorts to burrs to make his horses appear stylish. A burr is a cruel thing to attach to a horse's bit."

HOBART MAUSOLEUM.

Tomb Which Will Contain the Remains of the Late Vice President of the United States.

The massive mausoleum which will contain the remains of the late vice president, Garret A. Hobart, is now rapidly nearing completion in Cedar Lawn cemetery at Paterson, N. J. The design was prepared by Brite & Bacon, the New York architects, and all the work has been done under

their direct supervision. The tomb will cost about \$80,000. Its material will be principally white granite, surrounded by fluted columns of the purest white Italian marble. The entrance is guarded by heavy bronze doors, ornamented with piece work. All of the interior is lined with white marble. The dimensions of the building are: Length, 39 feet 8 inches; width, 21 feet 2 inches; and height, 22 feet 7 inches. The remains of the vice president will repose under the heavy dome in a marble sarcophagus beside another of similar make destined for the last resting place of Mrs. Hobart. In addition to these receptacles will be six catacombs for the other members of the Hobart family.

Australia's Cattle King.
The cattle king of Australia owns more than 1,000,000 acres of farmland, and leases about 1,000,000 more. He is an Irishman named Samuel McCaughey, who in 1856 landed in Australia almost penniless. One of his farms on Darling Downs is 40 miles long and 36 miles wide. His chief business is raising sheep.

Look Ahead, Girls.

If young girls would look ahead it would sometimes save them from serious collision with the men they marry. It is here that ignorance is almost a crime. The young husband cannot understand it when the wife changes to a peevish, nervous, querulous woman. And the young wife does not understand it herself. She only knows that she is very miserable.

If ever there is a time when nature needs help it is when the young girl is adjusting herself to the new conditions of wifehood. Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It promotes regularity, dries debilitating drains, heals inflammation and ulceration, and cures female weakness.

Sick women are invited to consult Dr. Pierce, by letter, free. All womanly confidences are guarded with strict professional privacy. Write without fear or fee to Dr. R. V. Pierce, Buffalo, N. Y.

"I will drop you a few lines to-day to let you know that I am feeling well now," writes Miss Annie Stephens, of Belleville, Wood Co., West Va. "I feel like a new woman. I took several bottles of the 'Favorite Prescription' and 'Golden Medical Discovery.' I have no headache now, no backache, and no pain in my side any more. No bearing-down pain any more. I think there is no medicine like Dr. Pierce's medicine. I thank you very much for what you have done for me—your medicine has done me so much good."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

A STUDENT FOR THE

Priesthood a Victim of an Acid Thrower.

Chas. Straussburger, 23 Newbury avenue, Chicago, a student for the priesthood, was the mistaken victim of an acid thrower at the Chicago, Burlington and Quincy depot, Aurora, Ill., last week. As Straussburger entered the door of the depot a man stepped to the front and dashed a vial of acid in his face. The fluid missed his eyes but the right cheek and side of his nose were covered and burned. The thrower took a second look at his victim, and cried out:

"My God, I've got the wrong man," and fled. Straussburger was able to return to his home in Chicago. There is no clue to the identity of the thrower.

N. Jackson, Danville, Ill., writes: "My daughter had a severe attack of la grippe and a terrible cough settled on her lungs. We tried a great many remedies without giving relief. She tried Foley's Honey and Tar which cured her. She has never been troubled with a cough since." Sold by all druggists.

A KENTUCKY GIRL

Declared the Most Beautiful Woman in the Louisiana Purchase.

A Dispatch from Danville, Ky., says that Miss Annie Fay Yeager, now of Monticello, Mo., but formerly of that place, has been declared the most beautiful woman in the Louisiana Purchase. The committee which gave the decision was composed of Charles M. Kurtz, assistant director of fine arts for the Exposition; Mr. Robert Brinhurst, the sculptor; Mr. Charles Ward Rhodes, the curator of paintings of the St. Louis Museum of Fine Arts, and a committee of three other persons from the Artist's Guild of St. Louis.

READ THIS.

Ripley, Tenn., June 1, 1901.
Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried various remedies without satisfactory results, I was persuaded to give you "Texas Wonder" a trial. I have used one bottle, and, although my case is one of long standing that baffled the skill of the best physician, yet it yielded at once to "The Texas Wonder," which I heartily recommend to all suffering from kidney and bladder troubles.

VICTIM OF PNEUMONIA.

Mrs. Mills Tandy Passeg Away After Brief Illness.

Mrs. Ida May Tandy, wife of Mr. M. R. Tandy, of Fairview, died about noon Sunday, after an illness of about ten days, of pneumonia. Mrs. Tandy was a member of the Cumberland Presbyterian church and a lady held in the highest esteem by a host of friends.

She was about 35 years old and leaves a husband and two small daughters.

The interment took place yesterday morning at 11 o'clock in the Goshen burying ground, Todd county.

The Missouri Girl.

The Missouri Girl, which appears at Holland's Opera House Tuesday, Jan. 21, is described as a domestic comedy. It is a play of the "Old Homestead" order and one of the first of that kind to be written. It has enjoyed prosperity for seven years and a great many plays of its kind have since been taken from it. In nearly every one of the later day plays there can be seen traces of The Missouri Girl, which is a true picture of domestic life. With the present company it is admirably acted and perfectly mounted. The scenery is most elaborate, being painted by the foremost artists in the United States. The stage settings are built with an absolute disregard as to cost, perfection being the one idea in view. Mr. Raymond, the author, personally directs each and every performance.

GRAND JURY CASES.

Alleged Robbers Held Over at Examining Trial.

The examining trial of Rodman Morgan and Cole Vaughan, charged with robbing Mr. J. F. Ellis, resulted in the prisoners being held over to the grand jury. Bond was fixed at \$500 in each case and in default of same they were returned to jail.

Sam Stoner, the other alleged robber, has not yet been arrested.

FORMER TRENTONIAN

Sustains Considerable Loss by Fire at Madisonville.

The dwelling occupied by Mr. J. W. Buck, of Madisonville, formerly a merchant at Trenton, was destroyed by fire Saturday. Mr. Buck's loss is estimated at \$500, with no insurance. The building was owned by Ashley Holloman and valued at \$2,500; insurance \$1,500.

THE WEEK

Of Prayer Was More Largely Attended Than Usual.

The week of Prayer conducted by the different ministers of the city, at the Methodist church, came to a close last Saturday night. The average attendance was probably larger than for several years.

MOORE-MITCHELL.

Groom From Kelly and Bride of Sinking Fork.

James Moore, a young Kelly farmer, and Miss Ula Mitchell, of the Sinking Fork neighborhood, were married at the home of the bride last Thursday night. Rev. John Jenkins performed the ceremony.

An Automobile.

There is a probability of one of the carriers of rural delivery doing away with the horses in use by purchasing an automobile.

Hancock-Mason.

Mr. J. C. Hancock, of near Pembroke, and Miss Maggie A. Mason, of the Edwards Mill country, were united in marriage last Thursday night.

Keys Lost.

Lost, between Wheeler's warehouse and R. E. Cooper & Co.'s, a bunch of keys. Hand to W. H. Faxon and get reward.

A bill has been drawn and will be presented to the Legislature to make an appropriation for a new capital at Frankfort, cost \$1,000,000.

W. P. Winfree has returned to relatives in Paducah.

HIT THE GROUND

With Great Force, and Hip Was Injured.

Mr. N. B. Edmunds, of this city, the well known commercial tourist, was painfully injured in a runaway accident near Caneyville, Ky., last Wednesday.

The horses ran off and Mr. Edmunds jumped from the vehicle. He fell to the ground with a great force and one hip was badly sprained. He was otherwise cut and bruised and will be laid up for some time. He was brought home on a cot Thursday afternoon.

BUILDING AT TRENTON.

Forbes & Bro., of This City, Have The Contract.

Work was commenced on the new residence of Mrs. Fox to be erected on her lot on Main street. The work is being done by Forbes Bros., of Hopkinsville, from plans drawn by Jas. L. Long, a successful young architect of the same place.—Trenton Democrat.

DEATH CLAIMS

Mr. W. N. Ducker, The Oldest Undertaker In The State.

Had Buried 10,000 People, or About The Population of This City.

After a lingering illness, Mr. W. N. Ducker, one of the oldest of our citizens, peacefully passed away last Friday night at 10 o'clock. As intimated in our last issue, the end was not unexpected. He was in the 76th year of his age. He came here from the Northern part of the State when a young man and the greater part of his busy life was spent in Hopkinsville, where he married and raised a large family, five daughters and one son. His friends were legion. He was probably the oldest undertaker in the State and told a friend not long since that he had buried over 10,000 people. A large gathering of friends attended his funeral services at the Methodist church last Sunday morning. He was a member of the Methodist church for a half a century or more.

PERSONAL GOSSIP.

Dr. John D. Clardy has returned from Frankfort.

Mrs. Mary B. Campbell is visiting friends in the city.

Mr. Andrew Hall, of Atlanta, Ga., spent Sunday in the city.

Mr. J. E. Hayes, merchant at Dawson, was here yesterday on business.

Mr. Jack West, of Bowling Green, on his return from the South, was in the city yesterday.

Miss Sallie Campbell, of Hopkinsville, is the guest of Mrs. Q. C. Atkinson.—Clarksville Leaf Chronicle.

Miss Olive Adams, of Lexington, is the guest of her sister, Mrs. L. B. Ragon.

Miss Fannie Belle Bronaugh returned from Cleveland, Ohio, last Saturday.

Mr. Medley Dennis, of Birmingham, Ala., spent yesterday with his parents in this city.

Mr. Henry M. Massie and wife, of Lafayette, who had been visiting relatives in Paducah, passed through the city Saturday, enroute to Pembroke, where they will spend a few days with Mr. Massie's parents.
